EWEN ON THE STAND.

He Is Subjected to a Most Rigorous Cross-Examination.

ARE MORE WITNESSES

A Couple of Them Are Alleged to Be in Possession of Evidence That Is of a Decidedly Incriminating Character.

Cynthiana, Ky., July 30.—While the defense has subpoenaed over 100 witnesses to impeach the testimony of the commonwealth and establish alibis for Jett and White in the Marcum murder case the prosecution is also securing many valuable witnesses who could not be secured at the first trial at Jackson. Officers arrived from Breathitt county with Samuel Little, who is considered a stronger witness than either B. J. Ewen or John L. Patrick. It is stated that Little not only saw Jett and White just before Marcum fell and again after the shooting, but also he witnessed the shooting in the courthouse. Little was arrested Tuesday night by the soldiers while hiding and brought here by a deputy. Little is related to Curtis Jett. John Freeman is another important witness for the commonwealth. Captain B. J. Ewen, the principal witness for the prosecution, was the first witness called by the commonwealth Wednesday.

Captain Ewen was subjected to a rigorous cross examination. After his testimony Judge Osborne asked him if he desired guards to take him across the river to the camp. He said he desired guards to escort him and he was temporarily placed in one of the jury rooms, until the militia was called and they took him to Camp Licking. On the witness stand it developed that he had made different statements to Judge Hargis and others immediately after the killing of Marcum in Breathitt county. He gave as his reason that he was afraid of Hargis and Callahan. He said that Hargis and Callahan and Combs had called him into consultation immediately after the killing and told him what to say and that he had agreed to do so as he was afraid of being killed then and there. This created some stir in the courtroom and immediately after he had left the stand some applause was started, which Judge Osborne promptly squelched.

TWENTY-FIVE DEAD.

This Number of Persons Believed to Have Been Blown Up.

Lowell, Mass., July 30.—In the powder magazine explosion near here Wednesday, half a dozen men who were loading kegs of powder from one of the magazines were blown to pieces. Four boys 200 yards away were killed by the concussion and fourteen frame houses within a radius of 400 yards went down as though they had been built of cards. Seven of these houses immediately caught fire from overturned stoves and were destroyed. At least three persons were caught in the ruins of the houses and burned to death, while seven or eight others, who were taken from the fire, died subsequently of their injuries. Death list is twenty-one. In all, seventy buildings were destroyed, while windows for five or six miles around were pulverized. The report could be heard distinctly fifty miles away.

WRONG NEGRO.

One Under Sentence of Death at Birmingham Not Right Man.

Birmingham, Ala., July 30.—Felix Hall, a negro, who was sentenced to be hanged at the Jefferson county jail has not only had his life saved, but will probably regain his liberty once more. He was identified by T. M. Morrissey of Vicksburg, Miss., as Henry Jackson, and Mr. Morrissey says the negro was in Louisiana at the time of the killing of Norwood Clark, of whose death he was convicted and sentenced to be hanged.

Hall claimed all along that his name was Henry Jackson, and that the authorities had the wrong man. He said that he could not establish the alibi at the time of the trial because he could not get his witnesses located in time.

Governor Jelks has been asked by Judge Greene to reprieve the prisoner for sixty days, which request has been granted.

Noted Genealogist Dead.

New York, July 30.—Daniel Hoagland Carpenter, the genealogist and author of several books dealing with the history of the early settlers of the colonies, is dead at his home in Maplewood, N. J., after a long illness. He was seventy-five years old.

Cruiser and Steamer Collide.

Plymouth, July 30.—The British third class cruiser Melampus collided with and sank the British steamer Ruperra off Lizard Tuesday night. The crew of the Ruperra was saved. Damage sustained by the Melampus necessitated docking her for repairs.

Heavy Rain at Corsicana.

Corsicana, Tex., July 30.—Six and one-half inches of rain fell in twenty-four hours. Refinery and power house are flooded and had to shut down. Small buildings were moved and several bridges washed away.

DIVORCES IN DAKOTAS

Validity of the Same Is Raised in a British Court.

TWO FOUND GUILTY.

Respondent and Co-Respondent Get the Worse of a Decision and a Heavy Financial Judgment Is to Be Paid.

London, July 30.—The validity of Dakota divorces in England was again raised before the president of the divorce court, Sir Francis Jeune, in the suit for divorce brought by D. S. Constandinid against his wife, who is a daughter of Stephen Ralli, a member of the firm of Ralli Bros., well known in New York as well as in London. bigamously marrying Dr. Lance, the family physician. Mr. Constandinid secured a judicial separation from his wife in 1884. John Lawson Walson, counsel for the petitioner, explained the subsequent proceedings as follows: Belgravia, went to a wild district of the earth immigrated to the half settled state of Dakota, became an American citizen, stayed six months there, fraudulently obtained a so-called divorce and married the co-respondent there, thus using the lax Dakota laws for her own purpose. "This," continued Mr. Walton, "was fraud on civilized jurisprudence."

The jury found the respondent and co-respondent guilty of adultery, awarded \$125,000 damages against Dr. Lance and also found the petitioner guilty of the counter charge of adultery. His petition, therefore, was dismissed and argument on the points of law involved was postponed until Thursday.

UNDER BOND.

There Came Near Being Trouble During the Preliminary Trial.

Mobile, Ala., July 30.—A special from Hattiesburg, Miss., says. The trial of Mrs. Nancy Odom, charged with killing her brother, John Rich, resulted in her being bound over to await the action of the grand jury under \$2000 bond. Her daughter, Emma, a very pretty girl about sixteen, also charged with complicity, was placed under a \$300 bond. Bitterness at Richton is so strong that trouble is expected. Two brothers of the parties arrived Wednesday, and it is feared that the quarrel will be renewed. Attorney McLaurin of this city has been employed by Mr. Steve Rich, father of the woman, to prosecute the case. Several special officers have been sent out to preserve order. Several times during the trial Sheriff T. E. Batson and his officers were compelled to use stringent means to prevent fatal difficulties in the court room.

Wreck at Mine.

Idaho Springs, Colo., July 30.—An explosion at the Sun and Moon mine, near here, wrecked the transformer house, set fire to oil in the transformers and threatened the destruction of the main shaft-house. The latest information is the fire is under control. Before the explosion a watchman saw men running away and shot one. He was taken in charge and cared for. The mine is employing non-union men. Dynamite is believed to have been used.

A man wounded died. He has been identified as Philip Fire, a member of the Miners' union.

Asleep Forty-Four Days.

New York, July 30.—After having been asleep for forty-four days in a Long Branch, N. J., hospital, except at slight intervals, C. E. Endicott Allen, a Harvard student, is showing signs of improvement. All of the strange sleep is supposed to have been in the nature of hysteria caused by overwork. The doctors believe he is now on the road to recovery.

Prosecutor Byrd Spoke.

Cynthiana, Ky., July 30.—The arrest for the second trial of Curtis Jett and Thomas White for the murder of James B. Marcum at Jackson, Ky., opened Wednesday's session at 8:30 a. m. Byrd, who conducted the commonwealth's side of the case at trial at Jackson, made the opening statement for the prosecution.

BRYAN, TEXAS, JULY 30, 1903

Keep cool and look pleasant.

Join the business league tonight.

Mighty few opinions are ever changed by street arguments.

Bulletin from Navasota Review: "Hot weather an' no booze."

Are you able to give any good reason why you will not identify yourself with the Business League?

The premium lists and amusement features of the San Antonio fair—Oct. 17 to 29—are very attractive.

Keep your eye on the Central Texas fair dates, get your exhibits ready and make your arrangements to attend.

The people's party shows signs of animation at Denver. Holding the meeting at a health resort was a happy thought.

The I. & G. N. people have promised Bryan something good all along, and now it appears the promise is to be realized.

The carnival to be held at Palestine on Sept. 16 to 18 has invited the co-operation of other counties, offering prizes of \$100, \$50 and \$25 as first, second and third prizes for county exhibits. Transportation charges will be paid both ways on all stuff sent and not offered for sale. R. R. Claridge is in charge of this department and will answer all inquiries.

Burleson and Grimes county people are actively engaged in hunting for oil. If this country can get in one good crop it won't need any oil to grease the wheels of progress.

The Eagle yesterday morning gave an excellent account of the great powder explosion near Lowell, Mass. The item was the one most prominently featured by the state papers of even date.

BRYAN LOSES ONE.

The Office of the Grand Recorder of the A. O. U. W. Changes Hands.

The Eagle learns, by telegram from Joe B. Reed, that he was not re-elected to the office of Grand Recorder of the A. O. U. W., the election having been held yesterday at 1 o'clock. The message reads:

Waco, Texas, July 30.—The Eagle and Pilot, Bryan, Texas:—"Hassell elected Grand Recorder by two votes."

The telegram refers to W. A. Hassell, Sr., well known in Bryan where he formerly lived. Mr. Hassell's home being in Dallas, this will doubtless cause the removal of the office of Grand Recorder to that city. Mr. Hassell is a good man, well qualified to discharge the duties of the office. He has many warm friends in Bryan.

The loss of the office to Bryan is to be regretted, but it is too late to help matters now. The people of Bryan, one and all, will especially regret the loss of the office by Mr. Reed, a man held in the highest esteem here. It is universally conceded that Mr. Reed has made a good grand recorder. Unusually energetic, also honest and upright by nature, he has devoted his whole energy to the duties of the office which he has held the past four years, and the Order in Texas

SENSATION CAUSED.

Buda Pest, July 30.—Deputy Solomon Papp caused a sensation in the lower house of the diet by spreading out on the table 10,000 kronas in cash, which, he declared, had been tendered him as a bribe to desert his fellow-obstructionists and leave Buda Pest. Herr Papp, who is a member of the Kossuth party, added that it was former Deputy Diens who attempted to bribe him.

Deputy Lovassey said that the editor of the Magyar Orszag had been asked how much money would be required to buy off that newspaper support of the obstructionists.

A parliamentary committee was appointed to investigate the matter. There were scenes in the diet when the premier, Count Hedevaray, rose to commence the debate or the indignity bill. The obstructionists stood up, and the chamber resounded with deafening shouts, the banging of desk lids and benches hurled at the opposing benches. The sitting was suspended, but these scenes were repeated on its resumption, and ultimately being unable to obtain a hearing, the premier handed the clerk of the house a written motion moving the reading of the bill. When the obstructionists became aware of the action a couple of the members of the Kossuth party snatched the presidential tribune, snatched the peer from the clerk's hands and tore it to pieces. The tribune was soon filled with shouting deputies, and amidst the tumult the session was again suspended.

SHOOT SEALS.

Captain Nice Says This Practice Will Soon Exterminate Them.

Seattle, Wash., July 30.—Captain Nice, agent for the North American Commercial company at Dutch Harbor, Alaska, who is in the city, charges fishermen on Japanese vessels with the disappearance of seals on the Pribyloff island. He says Canadian and American fishermen masquerade under the Japanese flag and shoot seals instead of spearing them, which causes the body to sink rapidly so that many are killed to no purpose, while the shooting disturbs breeding on nearby islands. He says that unless depredations are stopped Pribyloff island seals will disappear in a few years.

LOCKJAW CURED.

Successful Treatment in a Hospital at San Francisco.

San Francisco, July 30.—Doctors at the Grand hospital have succeeded in curing a case of lockjaw. The man is named Pietro Raffino. Anti-toxin was injected in the muscles of his back. No improvement developed and he was given an injection of anti-toxin in the spinal canal. The doctors then drilled a hole through his skull and injected anti-toxin into the lateral ventricle. The man is now well.

has grown and prospered under the administration of its affairs by Mr. Reed and the other grand officers associated with him.

Mr. Reed was elected supreme representative. Col. W. D. Bettis of Orange was elected grand master workman.

Mr. Hassell will arrive in Bryan today and will probably remain in Bryan some time.

ANOTHER STORM.

Washouts Happened, Cars Ditched and Trains Badly Delayed.

Austin, July 30.—Another rain and electrical storm prevailed here, beginning at 3 o'clock Thursday morning and continuing until noon. Telephone service was crippled.

A bridge on the Llano branch of the Houston and Texas Central railway was badly damaged this side of Waters.

A serious wreck occurred on the International and Great Northern road near Taylor as the result of a washout. Five trains are laid out and ten coal cars ditched.

The fine residence of Robert Barker, eight miles southwest, was struck by lightning and burned down.

The Colorado river has risen six feet since Wednesday night. The Llano river is also up.

Society Wedding.

Austin July 30.—Miss Ella Florence Fulmore was married to Lieutenant William C. Hardee of the United States marine corps, stationed at Portsmouth. The bride is a daughter of Judge and Mrs. Z. T. Fulmore and the groom a graduate of West Point.

Wish Depot Rebuilt.

Austin, July 30.—An application was filed with the railroad commission by citizens of Bells, Grayson county, to compel the Katy to rebuild the depot at that place, destroyed by fire.

Two Thousand Girls to Strike.

New York, July 30.—At a mass meeting under the auspices of the Wrapper Makers' union 2000 girls employed in that trade here have been ordered to strike for a nine-hour day.

Now in Control.

New York, July 30.—J. P. Morgan & Co., as financial agents of the Rock Island and the St. Louis and San Francisco railway interests, took over from Edwin Hooley & Co., Mr. Hooley personally and R. H. Porter, enough stock of the Evansville and Terre Haute road and its subsidiary lines to give the first mentioned parties control.

N. M. Bigelow was here from Keith, Grimes county, yesterday. Mr. Bigelow has been boring for oil for the Douglas Oil company near Bedias. The well is down seven or eight hundred feet and has been temporarily abandoned, and the machinery moved to Keith where a well will be put down by a local company organized by Dr. P. B. Plotts and Mr. Bigelow. The oil indications are said to be good at Keith. Work on the Douglas well will probably be resumed later.

Considerable rain has fallen during the past few days, but as yet the Brazos river shows no indications of an overflow so far as can be learned. Waco reported a five and a half foot rise yesterday afternoon and still rising.

A DIAL OF GRANDEUR

Minute Hand Will Be Sixty Feet in Length and in a Broad Circle Will Be Twelve Beds of Flowers, Each an Hour.

Chicago, July 30.—A dispatch to the Tribune from Milwaukee, Wis., says: The greatest clock in the world, the dial of which will be 120 feet in diameter, is being built here for use at the Louisiana Purchase exposition next year.

Only the hands and machinery are being made here, for the dial is to be a brilliant bed of flowers. The clock will be placed on the side of the hill north of the agricultural building.

The minute hand will be sixty feet long, and the ring at the end, which will be fastened to the machinery, will be eight feet in diameter. The minute hand will move five feet every minute. The numerals marking the various hours will be fifteen feet in length and made of bright colored coles. In a broad circle surrounding the dial will be twelve flower beds, one opposite each hour and each two feet wide and fifteen feet long. At night the time-piece will be illuminated with 2000 incandescent lights.

TERRIBLE TREATMENT.

During Religious Riots a Number of Babis Were Butchered.

London, July 30.—The Times describes serious religious riots in the city of Yezed in central Persia, which lasted more than a fortnight and culminated at the end of June. The outbreak was directed against religious reformers called Babis. In the city for two days every Babi found was butchered by the rabble and the mutilated bodies were dragged through the streets, followed by exultant crowds. Houses were looted, women beaten and killed and finally the priestly leaders of the riot enjoined the populace to bring all the remaining Babis to them or the governor for judgment. The governor refused at first to yield to the threats of the mob, but his palace was surrounded by menacing men and the following day he consented. One Babi taken before him was blown from the mouth of a cannon and another was killed and dragged through the town. Order, it is reported, has been restored, but the Babis who escaped are in hiding. Yezed has a population of 40,000. It is a walled city, surrounded by a deep trench, and is famous for its bazaars. Among the population are many parsees (fire worshippers), this being nearly the only place in Persia where they inhabit.

DOORS CLOSED.

Doylestown National Bank Placed in Hands of a Receiver.

Washington, July 30.—The Doylestown National bank of Doylestown, Pa., has been closed by the controller of the currency. Bank Examiner J. W. Schofield has been appointed receiver. The following notice was posted on the door of the bank: "This bank is closed and in the hands of the controller of the currency." This is signed by T. P. Kane, deputy controller of the currency, and J. W. Schofield, national bank examiner. The posting of the notice caused considerable excitement at Doylestown, as the deposits of the institution are large. Bank examiners have been working on the books for two days past, but no statement has been issued either by them or the officers of the bank.

An Old Institution.

Doylestown, Pa., July 30.—The National bank of Doylestown was capitalized at \$105,000 and its last report to the comptroller showed a surplus and profits of \$131,780, deposits of over \$1,000,000, loans and discounts and stock and securities of \$2,051,360. The bank was one of the oldest in the state. Its Philadelphia correspondents are the Philadelphia National bank and First National bank. The former has been its agent for fifty years and the latter for thirty years. Bank Examiner Schofield telegraphed Philadelphia banks to make no remittances to the Doylestown bank. The president of the bank, Henry Lee, is a prominent lawyer and candidate for judge on the Republican ticket.

PROPHECY RECALLED.

People Are Now Wondering Whether it Will Come True.

Rome, July 30.—The last tribute was paid to the late Pope Leo Thursday morning with the third great requiem mass, celebrated in the Sistine chapel of the Vatican, and the function was no less ceremonious and imposing than the two others. While there were, perhaps, fewer persons present, there was a great display of gorgeous uniforms. Of the sixty-two cardinals now in Rome all attended the mass except Cardinal Cretoni, prefect of the congregation of sacred relics, who is ill. A picture was presented by the procession of cardinals in violet robes and red capes, bordered with ermine, escorted by Noble Guards in scarlet uniforms and with drawn swords, the scene being softened by clouds of incense and the chapel resounding with the strains of the incomparable Sistine choir singing "Libra Me Domine." It made those present feel as though lifted into another world.

In the churches at Rome Thursday began the offering of prayers to the Holy Ghost to assist and enlighten the cardinals to choose the right man to sit in the chair of St. Peter.

During the conclave blessed sacrament will be exposed in several churches for special prayers of the faithful with the same object in view. pineto, finding his project checked by the large amount of money required. Intends to make it an international tribute to the late pontiff, and will ask all countries to join in the movement. He says he expects considerable contributions, especially from America.

The people are now recalling a prophecy which at the time it was made produced considerable talk among the superstitious, who held it to be an indication as to who would be the next pope, so much so that several large bets were made in favor of the cardinal indicated by the prophecy. Many years ago the late Cardinal Parocchi, who was not then even a bishop, one day met an old woman in the country. She was a typical witch in appearance and planted herself before Parocchi, saying "The bishop of Santa Rufina will be the next pope." The woman refused to say anything more. Parocchi repeated the tale, which gained added circulation when he was appointed to that see, and before his death he was considered to be the most likely successor of Pope Leo. When Parocchi was dying he repeated the story of the old woman's prophecy. The famous bishopric of Santa Rufina was afterwards given Cardinal Serafino Vannutelli, and now people are asking themselves will the prophecy come true after all.

COMPARISON MADE.

Under American Rule Revenue Has Increased Fully Fourfold.

Washington, July 30.—A statement prepared by the bureau of insular affairs of the war department shows customs revenues in the Philippines for the first four months of 1903 to have been \$2,931,752, against \$2,961,611 in the same period in 1902 and \$215,657 in 1899.
